AI ORCHESTRATION

WEB ARCHITECT

FULL-STACK DEV

Scaling is a resource battlefield.

70% of organizational bandwidth is wasted on coordination rather than creation.

The Operational Tax

Companies drown in repetitive strategy, operations, and analysis.

The Talent Gap

Specialized expertise is expensive, slow to recruit, and harder to retain.

Fragmented Execution

Disconnected tools deliver text, but rarely coordinated industry results.

Don't just use AI. Orchestrate your workforce.

A coordinated executive board built for institutional trust.

01

CEO Agent

THE ORCHESTRATOR

Turns organizational mess into mission. Goal decomposition & coordination.

02

Specialist Agents

THE INDUSTRY EXPERTS

Precision agents for Legal, Marketing, Finance, and Supply Chain.

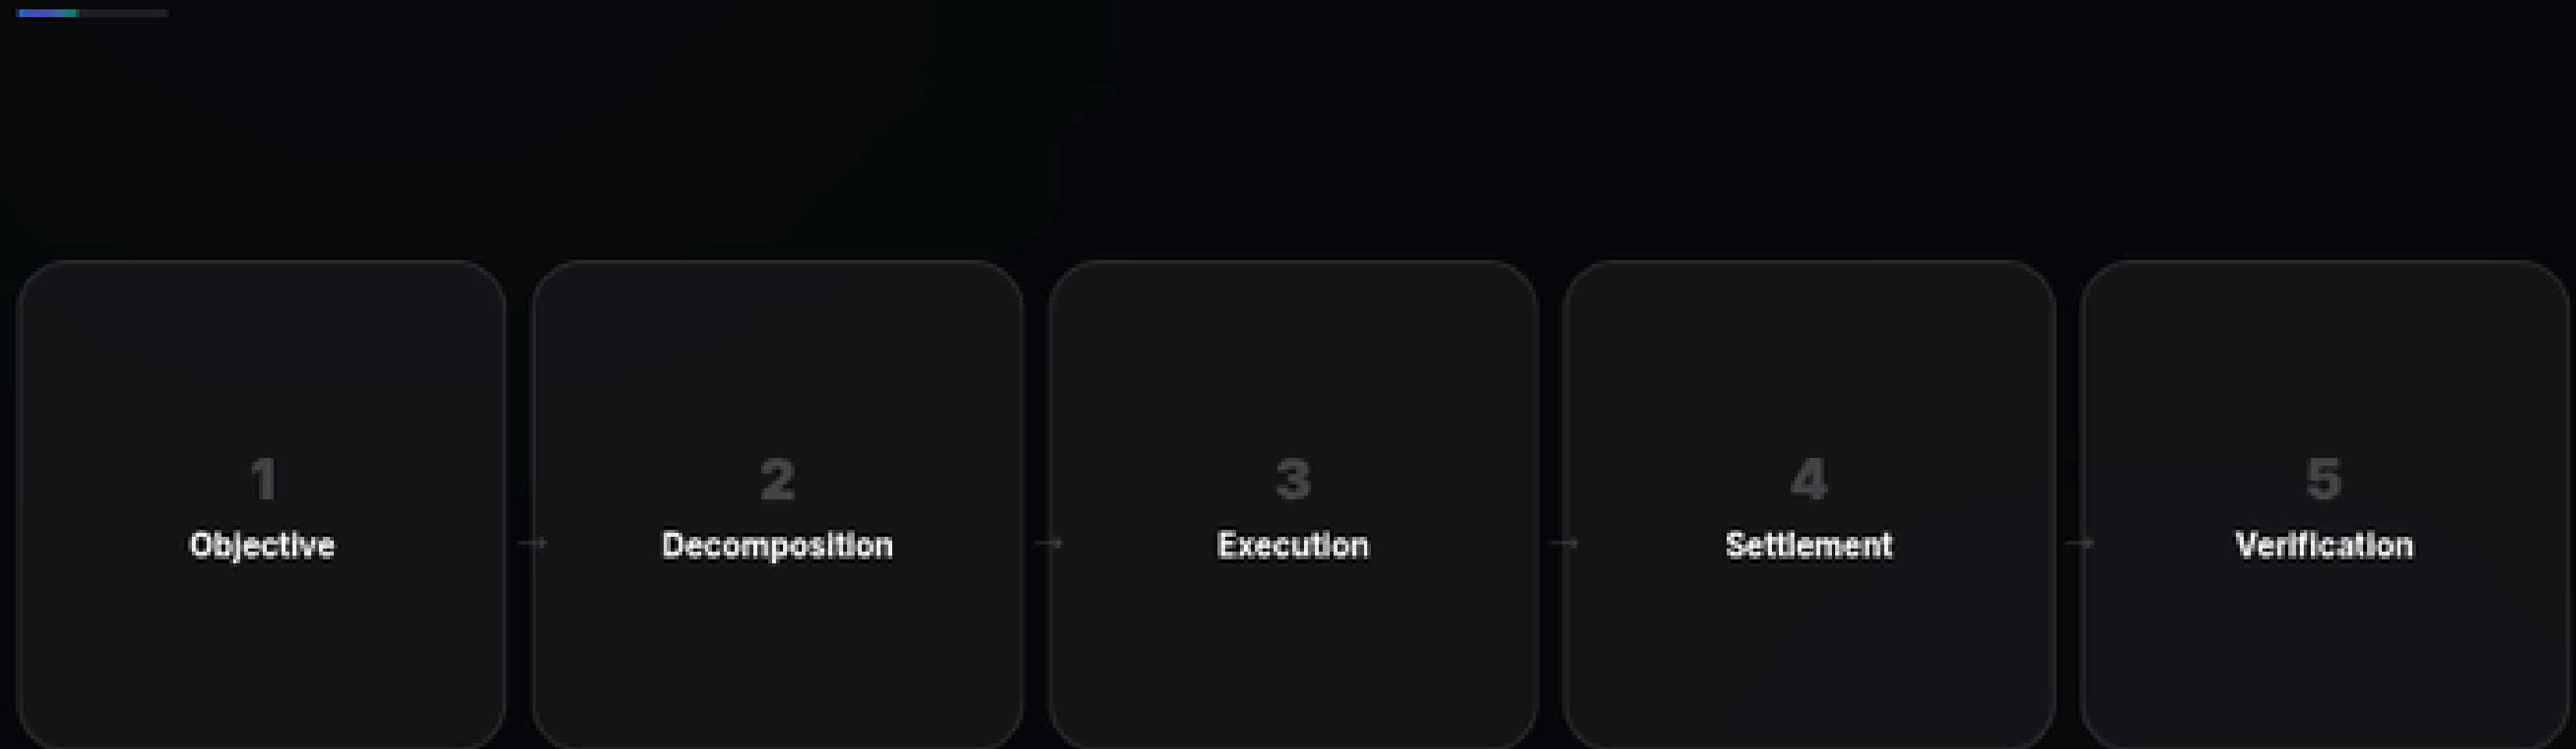

Hedera Trust Layer

Enterprise-grade security where every action is immutable (**HCS**) and settled instantly (**HTS**) with full auditability.

● Live Consensus Verified

Objective to Result in Seconds

A recursive pipeline that transforms high-level strategic mandates into verifiable deliverables.

Scaling Specialized Expertise.

A marketplace for consultants, lawyers, and engineers to list proprietary swarms.

70 / 30 Revenue Split

We reward the expertise and maintain the infrastructure.
Hedera native settlement ensures immediate, low-fee payout
for every handshake.

Hederon Studio

Industry experts build specialized agents with zero-code interfaces.

Verifiable History

Cryptographic proof of previous high-performance agent handshakes.

Built for Institutional Trust.

Leveraging the full Hedera stack for enterprise-grade auditability.

HCS

CONSENSUS SERVICE

Immutable activity logs for 100%
compliant audits.

HTS

TOKEN SERVICE

Native micro-settlement for global
creative swarms.

HOL

OBJECT LEDGER

Agent registration and discoverability
registry.

MCP

CONTEXT PROTOCOL

Unified framework for bridging AI and
On-Chain context.

The Hedera Advantage

Why the global economy runs on the Hashgraph.

-  **ABFT Security**
The highest standard of consensus for high-stakes execution.
-  **Native Multi-Sig**
Collaborative team-based wallet management for operations.
-  **Global Compliance**
Immutable trails enable easy auditing for regulated industries.

The Future of Work

From a hackathon MVP to the world's first agent-managed DAOs.

The Hederon Advantage

Why organizations choose Hederon AI over generic wrappers.

1

Industry Agnostic

From creative teams to fintech consultancies.

2

Algorithmic Trust

Proven results on-ledger, not marketing claims.

3

Sovereign Security

Your workflows, your keys, your data.

4

Scale on Demand

Instantly recruit a team of 100 specialized agents.

Unfair Advantage

The only platform bridging institutional trust and autonomous agent swarms.

Revenue Architecture

Sustainable growth through a creator-aligned fee structure.

REVENUE STREAMS

- 30% Platform Fee on mirco-tx
- Enterprise Studio Subscriptions

COST STRUCTURE

- Hedera Net Fees (\$0.0001 avg)
- AI API / Compute Units

100x

Reduction in coordination overhead for institutional partners.

The Rollout Plan

Targeted expansion from Web3 pioneers to global consultancies.

01 Build & Validate

Target solo-founders and small dev shops in the Hedera ecosystem via HOL Registry.

02 Scale & Ecosystem

Launch the Agent Marketplace and white-labeling for Legal-Tech firms.

INTEGRATED DISCOVERY

HOL + MCP

Join the Sovereign Revolution.
